

# User Acceptance Testing (UAT) Template

Date	24 June 2025
Team ID	LTVIP2025TMID54850
Project Name	Freelance Finder
Maximum Marks	4 Marks

## Project Overview:

Project Name: Freelance Finder

Description: A web-based platform that connects freelancers with clients. It includes profile Project creation, job postings, application tracking, messaging, and payment integration.

Project Version:v1.0.0

Testing Period: 2025-05-26 to 2025-06-02

## Testing Scope:

- User registration and login
- Freelancer and client profile creation
- Job posting and job application
- Messaging system
- Payment gateway integration
- Job status updates (e.g., applied, hired, completed)
- Search and filter functionalities
- Review and rating system

## Requirements to be Tested:

- As a freelancer, I want to apply for jobs easily.
- As a client, I want to post jobs and hire freelancers.
- As a user, I want secure login and payments.
- As an admin, I want to manage reported users and disputes.

## Testing Environment:

## Testing Environment

- **URL:** https://freelancefinder.example.com
- **Credentials:**
  - **Freelancer:** test.freelancer@example.com / password123
  - **Client:** test.client@example.com / password123
  - **Admin:** admin@example.com / adminpass

## Test Cases:

BG-001	Error on job posting form	1. Login as client 2. Submit empty form	Medium	Open	Form should show validation
...	...	...	...	...	...

**Sign-off:**

Tester Name:

Date: 26-05-2025

Signature:

**Notes:**

- Ensure that all test cases cover both positive and negative scenarios.
- Encourage testers to provide detailed feedback, including any suggestions for improvement.
- Bug tracking should include details such as severity, status, and steps to reproduce.
- Obtain sign-off from both the project manager and product owner before proceeding with deployment.
